Year 9 offer from 8th June 2020

8th June 2020

Dear parents and carers,

George Spencer Academy has always valued the views of students and even though we are operating remotely, this year is no different. From discussions with Year 9 students, parents and teachers and the results of the "rate my remote learning" survey we have reviewed our remote learning offer to ensure all year 9 students are in the best possible situation to achieve their potential in the future. From 8th June onwards, Year 9 students will only be required to complete work in the following subjects:

- English
- Maths
- Science
- The 3 options they have chosen

Our aim is to provide paper-based learning material for each of the individual option subjects over this half term. In the meantime, students should be prioritising the above subjects from the paper packs provided so far.

All Year 9 students are already aware of which options they will be studying going into Year 10 and this information has been shared with teachers. If this is not known by you or your child please contact Mr P Allen (pallen@george-spencer.notts.sch.uk) who will be able to provide this information.

Thanks for your support as always.

Miss J Gordon
Vice Principal
