11 June 2021

Dear Year 11 parent,

We are approaching the end of the first week of transition sessions to sixth form and whether your child has attended these or not there are a wealth of resources to prepare them for future courses on the student hub. Any post-16 course requires the development of some specific study skills. It is important that all learners understand what they are and start to practise them before they start courses in September. The skills that they will develop will enable them to achieve success at Post-16. They will also prove useful Post-18, whether they are intending to go to University, start an Apprenticeship or Employment. The 'Passport to Post-16' is a twelve-week programme which has resources for each of the skills required. The link to these resources is below which can be accessed through the student hub: <https://sites.google.com/george-spencer.notts.sch.uk/studenthub/6th-form/passport-to-post-16>

This information has been posted on the Year 11 Google Classroom and emailed to all students using their George Spencer email address.

Any student who has not attended the Sixth Form transition sessions will be contacted over the coming weeks to check they are continuing with their studies. If there are any weeks that you will not be available you need to email their Learning Manager. This will be an opportunity for students to touch base and ensure they have firm plans for Post-16 prior to the results day on Thursday 12<sup>th</sup> August.

Kind regards

Miss J Gordon  
Vice Principal
